Product description

- With a **working height of 32.02 m (105.04 ft)**, the working platform is perfect for maintenance, installation and assembly work – indoor and outdoor.
- A **Mega-Deck platform** provides with max. **7.66 m x 1.20 m (25.13 ft x 3.94 ft)** not only an immense amount of space, but with a lift capacity of **750 kg (1653 lbs)** also ensures enough “power” for tools and material.
- The standard **automatic outrigger system** levels out any roughness of the floor within seconds, creating a great deal of stability and safety.
- The infinitely variable **proportional control** in combination with a **2-axle steering mechanism** manoeuvres the narrow **1.40 m (4.59 ft)** width working platform agilely and precisely.
- A strong, emission-free **electro-hydraulic drive** allows long and powerful working intervals.
